

Course on Research Communication Skills Development

Office of Research,
Innovation and
Commercialization (ORIC),
University of Karachi

September 2-3, 2014

This course is designed to develop the essential skills for effectively communicating the significance of research, particularly outside the immediate environment of fellow-specialists in your own discipline or subject area. The relevance of this training will be far-reaching in a range of contexts central to any researcher's career. There are practical skills-based exercises and opportunities based on crafting and communicating research effectively, seminar and conference presentations, publications and formulating winning proposals for grant applications and industry-academia collaboration
