MESSAGE FROM THE VICE CHANCELLOR

A review of the Annual Report 2023-24 of the Official Students Societies of the University of Karachi reveals a series of inspiring academic and co-academic events through active participation of the students in diverse programs covering articulate cultural gatherings, creative arts exhibitions, launch of informative magazines, awareness campaigns and workshops aimed at promoting civic & social responsibilities, observance of memorable national and international events, organizing healthy sports competitions, supporting the cause of human rights as well as highlighting the significance of ethical and moral values and, of course, as lighter part of the programs - the sober entertainment events.

A special feature of all these endeavors is the advancement towards development of linkages and contacts with the students of several other universities and institutions. The guidance and motivation afforded to these societies by the office of the Students' Advisor, University of Karachi deserve genuine praise.

I present my sincere felicitations and best wishes for future efforts to all the team leaders, organizing committees of these societies, and importantly, to all the participant students and the eminent guests as well as supporters of the above productive activities.
